# Who We Are.

**SERAPHIM**  
INTERNATIONAL

---

## What we do

Specialise in targeted security and protection services while serving our local neighbourhood watch and the community from homes and businesses, to farms and malls.

---

## How we do it

Our approach is unique, targeted, and specific to YOUR needs rather than a “one size fits all” approach, combining technology with experience and practicality. We follow a precise and accurate process of assessing the various aspects and requirements based on both what we are provided with by the client (you) and what we measure in the said assessment.

---

## Why we do it

We are dedicated, reliable and focused on safety & protection and pride ourselves in delivering a first-class service as well as fair exchange, which we believe is beyond any competitor within the region.

# Our Services

Around the clock monitoring of your home or business by certified control room operators in a fully operational and hi-tech environment.

Our new family focused emergency response app and panic button that brings armed response and medical emergency services to you and your loved ones 24/7.

24 hour armed response.

Physical Guarding

24 hour emergency medical services.

Ad hoc aerial fire-fighting and logistics

Efficient alarm system installation and maintenance by certified technical specialists.

Camera installation & CCTV surveillance

Consistent feedback regarding alarm events and updates to our system. Keeping you up to date with your safety.

**SERAPHIM**  
INTERNATIONAL

# Alarms & Monitoring

Seraphim utilises leading alarm systems and monitoring platforms to monitor your home or business wherever you are. We strive to always be there every step of the way, to ensure your safety together with the safety of your loved ones.

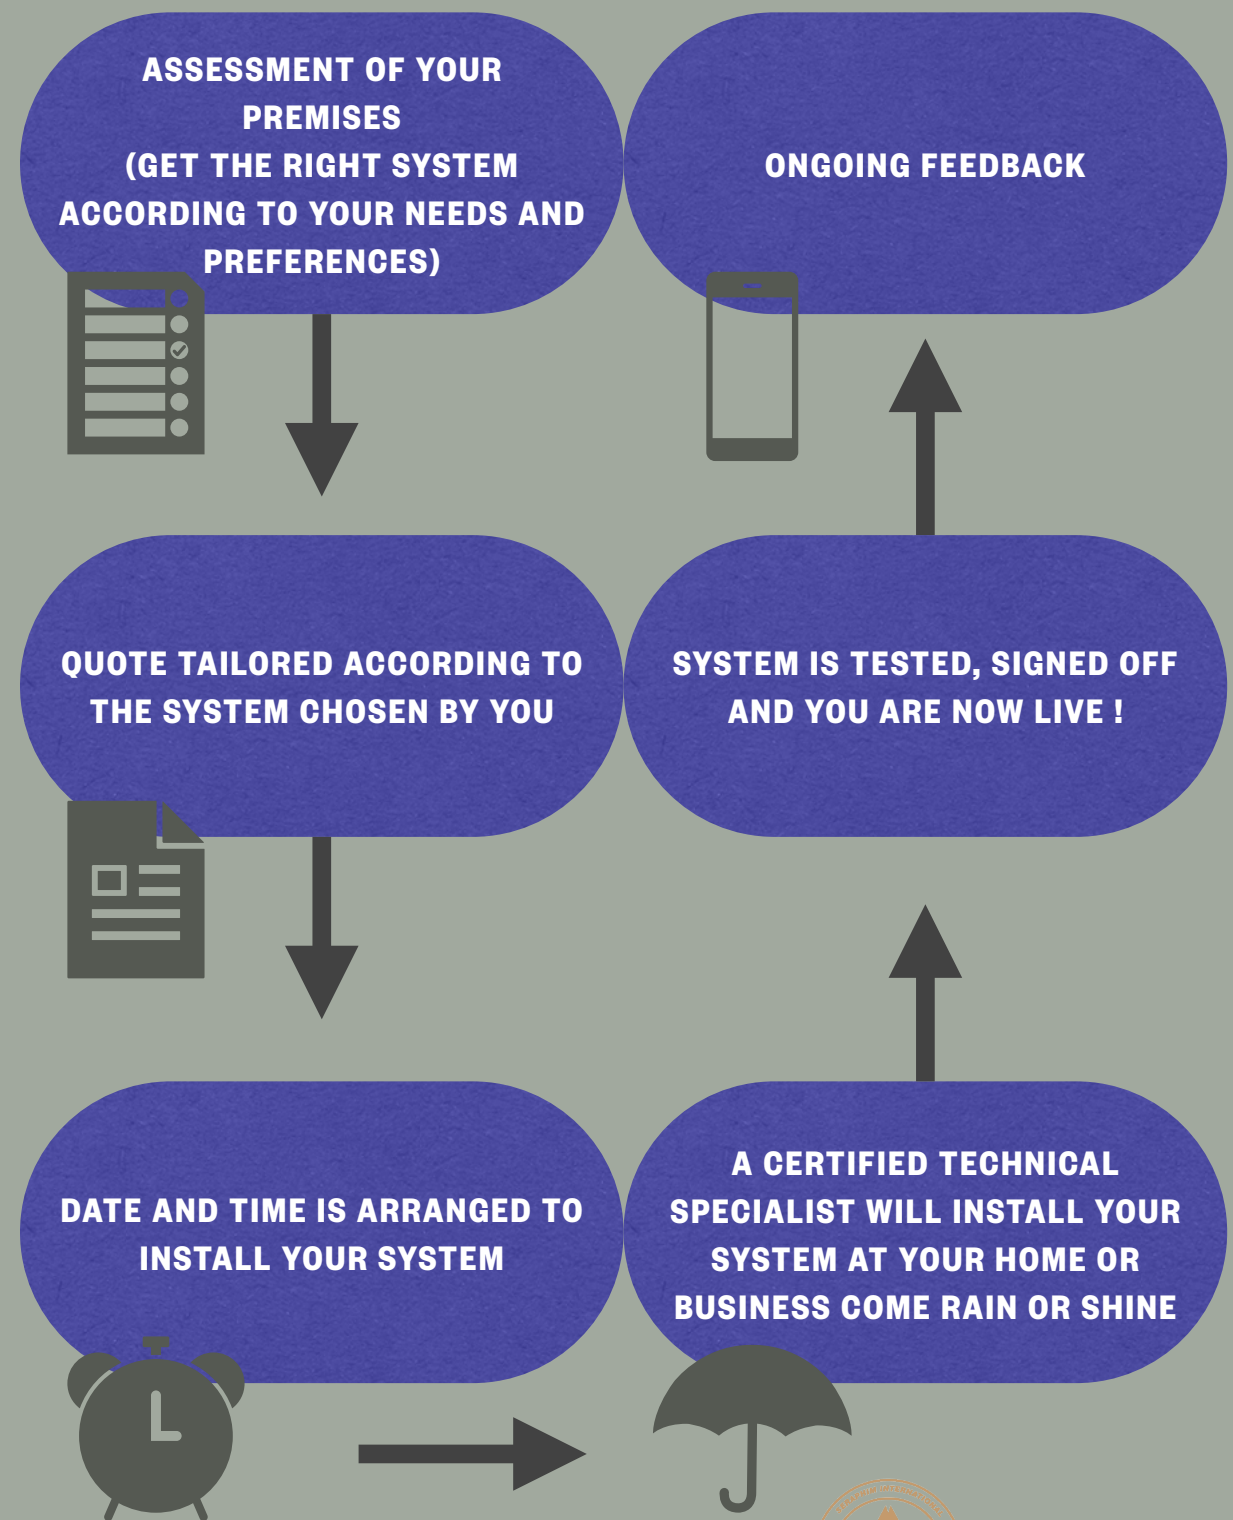

## Home Alarm Systems

Home alarm systems fulfil a crucial part of your security at your home. We have your home security requirements assessed by a security consultant providing you with the correct system to protect your home and loved ones. No one wants to think about the possibility of a home invasion. With our advanced home security systems, home or property owners will experience minimised risk and 24/7 support.

## Business Alarm Systems

Business alarm systems are very similar to home alarm systems in the type of product used but different in the business security requirement. We customise your business alarm system and requirements according to business hours as well as opening and closing trends.

# Armed Response

Our Response Officers are adequately trained, tested, and examined on all aspects of industry requirements such as discipline, compliancy, reaction time and threat management. We continuously strive for efficiency and service excellence.

# Physical Guarding

Our guards showcase a professionally equipped, managed, and trained division which is supported by senior management making for a highly effective workforce. We ensure that our client's needs are met regardless of the outlay, industry or conditions.

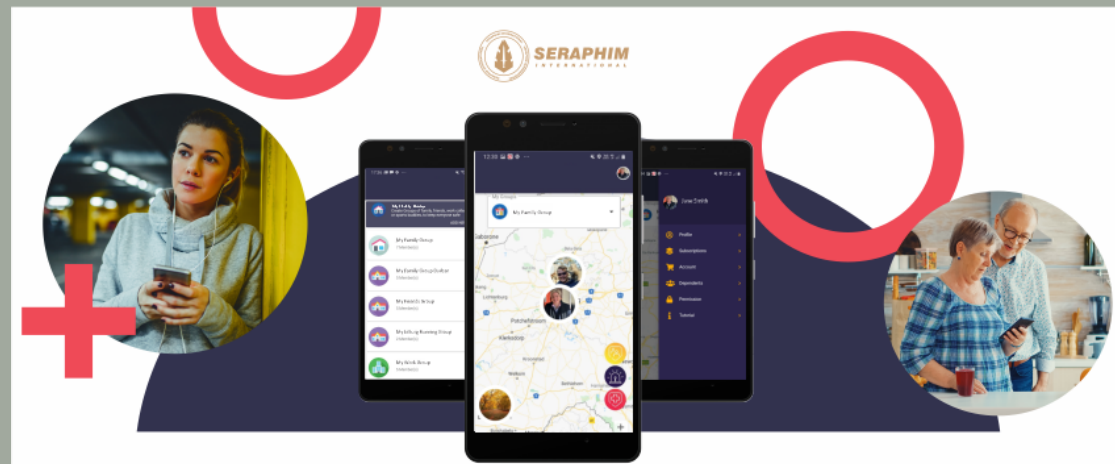

# Our App

We care about your safety and wellbeing and therefore work around the clock to bring you 24/7 armed response and medical emergency services for you and your family in the palm of your hand.

When you or your loved ones are at risk, a quick tap of a button signals our armed response or medical services to your exact geolocation even if you are unable to speak or you don't know where you are.

Download the Seraphim Response app today - the first 7 days are free for you to test and experience it.
